I. now ready.— Cruise's Digest of the Law of Real Property, Re-vised and considerably enlarged, by Henry Hopley White, esq. Further Revised and Abridged, with Additions and Notes for the Use of American Stu-

dents. By Simeon Greenleaf, LL. D.

"No work which has appeared for a long time will be more valuable to students or to the profession generally."—Law Reporter. 'Mr. Greenleaf's part in the work is not merely

"Mr. Greenleaf's part in the work is not merely well, it is admirably, done. His notes are full of learning, carefully considered, and of most commendable brevity. He has had no ambition to magnify his office. He has not encumbered his pages with a showy display of cheap learning, nor imposed upon the profession the accessity of purchasing a mass of speculative discussion, of no practical utility. The whole work, edited throughout as the first two volumes have been, will be one of the most valuable gifts ever bestowed upon the legal profession, and will add casentially to Mr. Greenleaf's already extended reputation."—North American Review.

2. ANGELL ON COMMON CARRIERS.—One vol. Svo. A Treatise on the Law of Carriers of Goods and Passengers by Land and Water. By Joseph K. Angell.

"His work will be valuable to every practising

lawyer in the country, and ought to have a place in every library. We are happy to learn that it has been thus far well received, and we have no doubt that experience will vindicate the correctness of these first impressions."—Law Reporter.

"It is a monument of industry, learning and re-search, which will prove of great utility in the practice of law and in the business of life, and, we think, cannot fail to add to the well-carned fame which Mr. Angell has already acquired as a lawyer and writer on many important and interestin subjects connected with his profession." [Providence Daily Journal.

"The subject is treated in a practical, plain and intelligible manner, and the book may be carefully consulted by the business man as well as by the lawyer."—Boston Daily Advertiser. CURTIS ON PATENTS -A Treatise on the

Law of Patents for Useful Inventions in the United States of America, and the Remedies for their In-fringement. By George T. Curtis, Counsellor at Law. 1 vol., 5vo. "The treatise of Mr. Curtis is thoroughly American, and it is practical. It is valuable, not only to gentlemen of the law, but to the originators and

proprietors of useful inventions generally. It systematically prepared, and can be consulted wi readiness by those not familiar with law books," [Law Reporter.

Diseases of the skin, Coughs, Colds, Spitting of

us to say he has used it in his own person with decided benefit—Dr. S. Harper, of Kent Island, has
written to us, he has used it with great success in
his practice [see his letter in the pamphlet.] And is practice [see his letter in the pamphlet.] And a a letter from a lady on the Eastern Shore of this tate, she says: "I had a letter from Miss E-n Tuorday; she says mother has requested her to a least derived approximate to the said of the last requested her to on Tuesday; she says mother has requested her to say, laabel derived almost instantaneous relief from DR. MARTIN'S COMPOUND SYRUP OF WILLS CHERRY has done, we feel bound to make it knswn. There never was an article in this country that has afforded relief and gave more satisfaction than this. In the neighborhood of Brownsville, in this county, it has effected several important cures, and, from our own certain knowledge of it, we pronounce it unequalied for the cure of Coughs, Colds, and diseases of this kind."

TO PRINTERS A RARE CHANCE.

TO PRINTERS—A RARE CHANCE.

THE SUBSCRIBER, wishing to engage in other business, offers for sale the Sulfisum County Whig printing establishment at a very low price. The Whig has been published six years, and aiready has a circulation of nearly eight hundred paying subscribers. Its advertising patronage is better than that of most country papers, and the office has a liberal run of job printing. The press is a Washington No. 4 Imperial, of Taylor's manufacture, and is nearly new. The type and other material are as good as can be found in a majority of country offices, and all that is required for the business. The county is bordered by the New York and Eric railroad on one side, and is one of the most growing and prosperous of the southern tier. It has now a population of nearly 30,000, being an increase of one-third in the last ten years. For the past five years the official patronage has been in the hands of the Whigs, and the prospect is fair of its continuing so to be. Only one other paper (Locofoco) is published in the country, and that is located fifteen miles farther west. To a practical printer, or any purson possessing the means, this ofter affords a rare opportunity for investment, as the public patronage is rapidly increasing, and the prospect of making money never better than now.

As it is the wish of the undersigned to make immediate sale, those desiring to purchase would do well to communicate with him on the subject withnediate sale, those desiring to purchase would do well to communicate with him on the subject with-out delay; and any further information that may

be desired will be readily given.

It being the object of the subscriber to sell, a fair and reasonable offer will meet with acceptance, and the terms of payment made easy.
